

Farm Animal Family Project

As our school year winds down, we have time for one more family project. We know that this year has evolved differently than anticipated. However, we had previously determined that we would like to do a family project involving farm animals. When you finish your project please take a photo and send it to Eastside Educational Center via Remind.

This project can be any farm animal that your child(ren) would like. For example: lamb, chick, calf or puppy. You can draw or paint your picture on paper or card stock. The project could be made out of clay or fabric. Feel free to look online for some inspiration. Remember this is supposed to be a fun project that involves cooperatively working with your preschooler.

We will try and post some of our projects online on Facebook so that everyone can see your wonderful farm animals.
